Now that you have verified all the information
swipe your screen to the left to go back to the
previous page

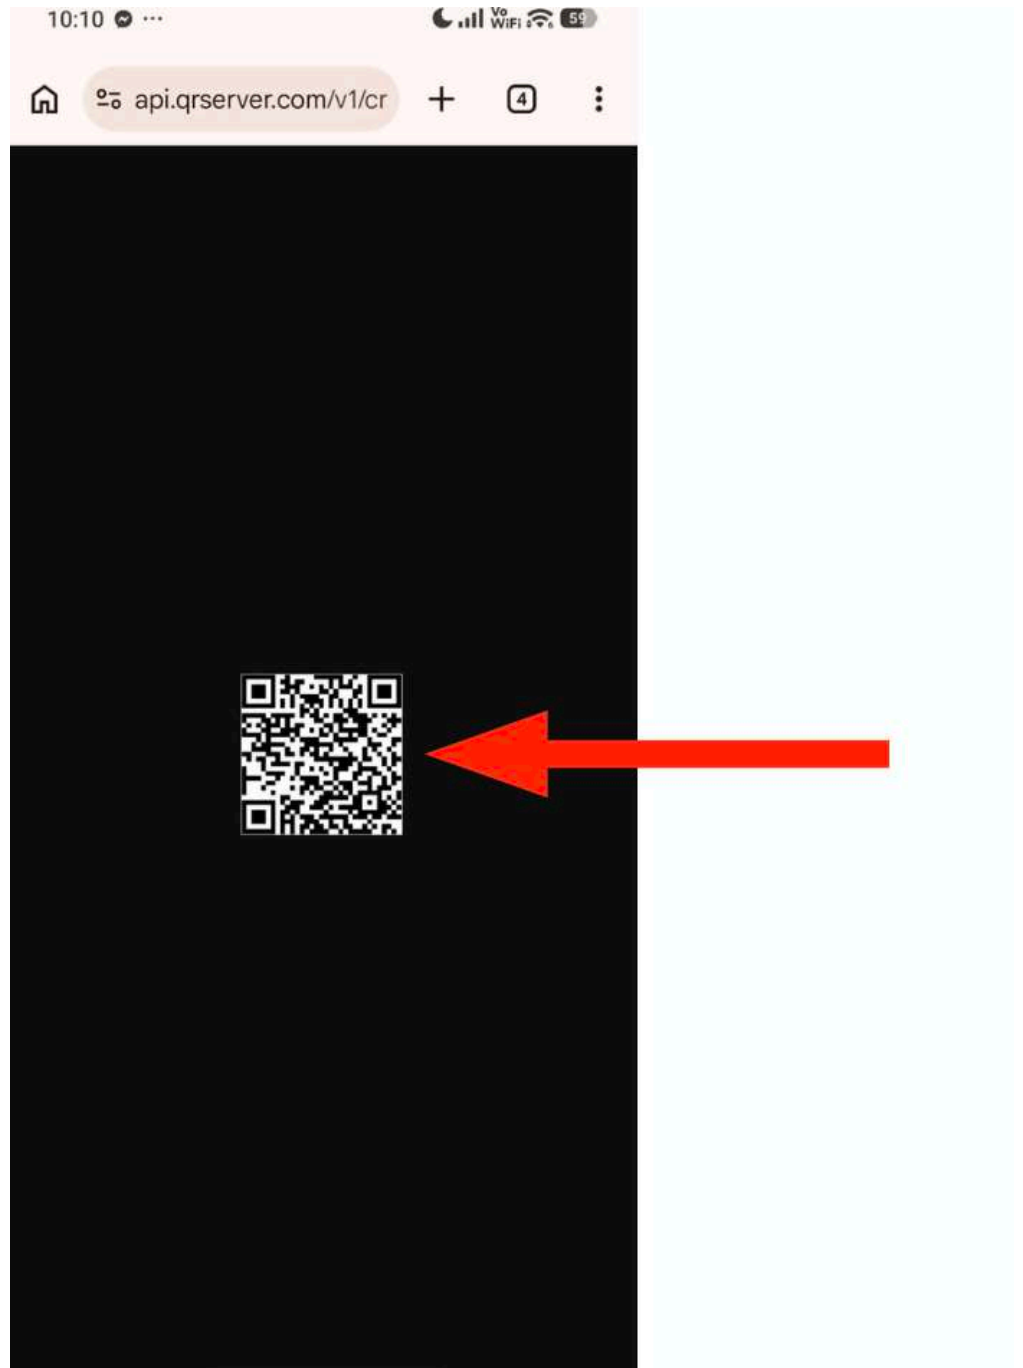

Tap "Show QR"

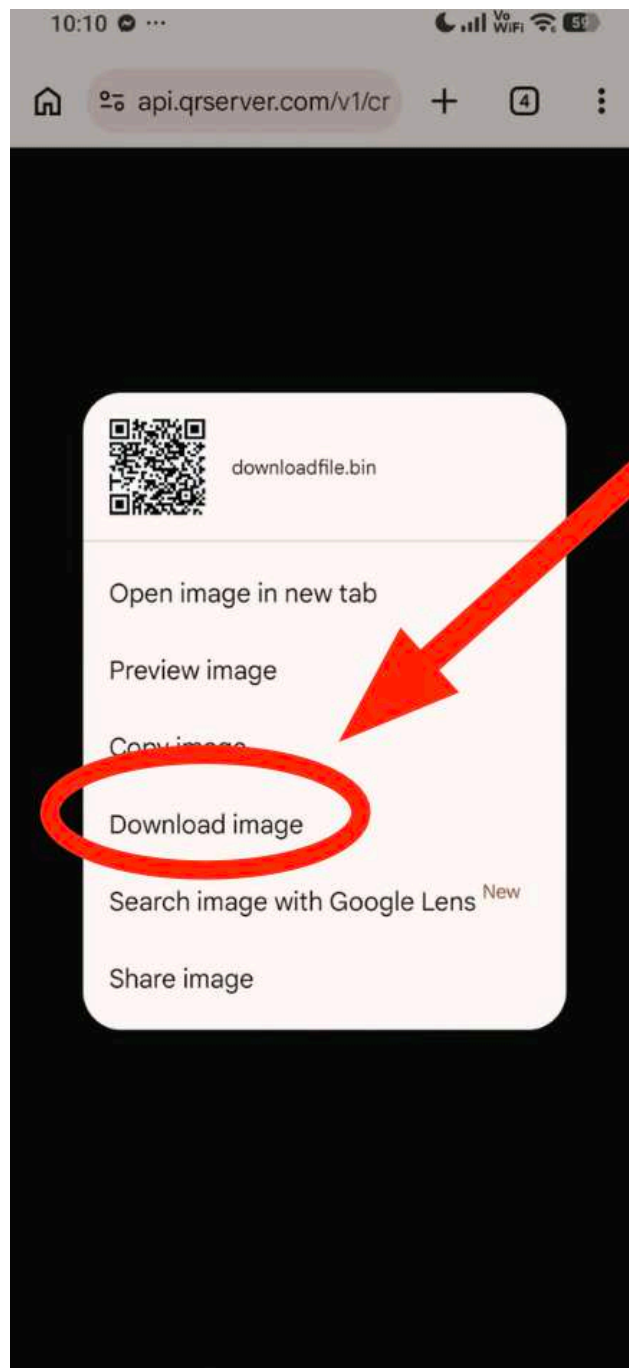

Tap "Download QR"

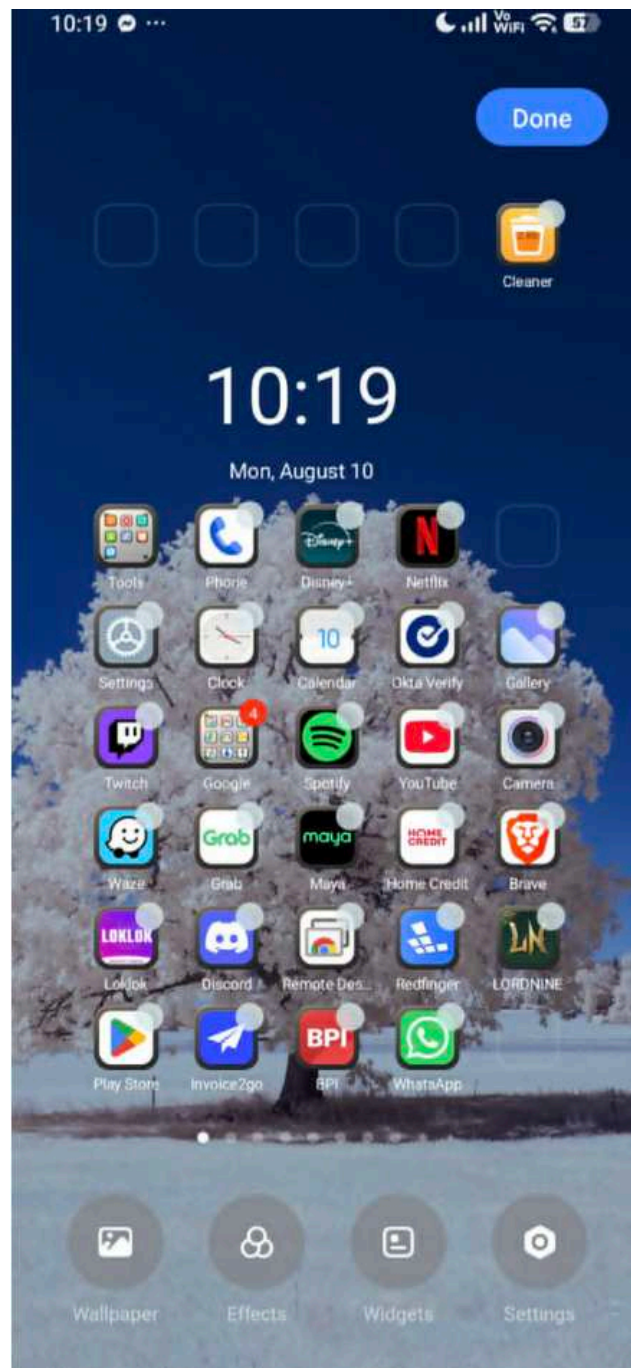

Long Press on the QR Image

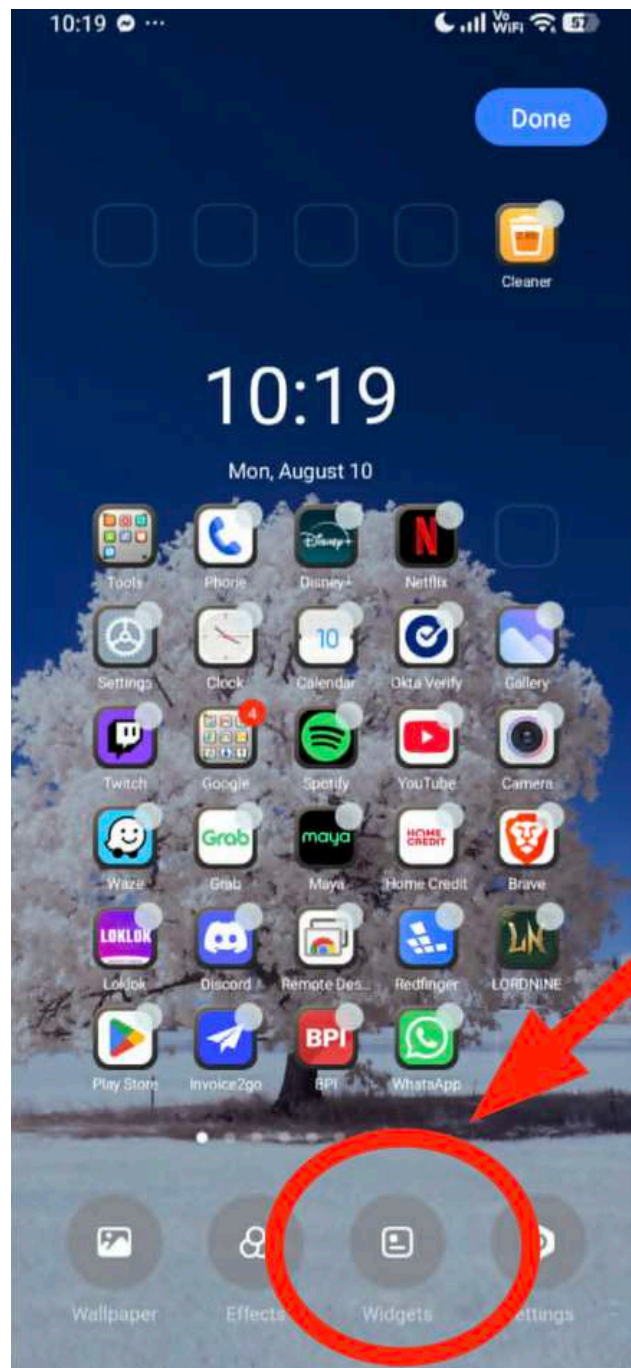

Tap on "Download image"

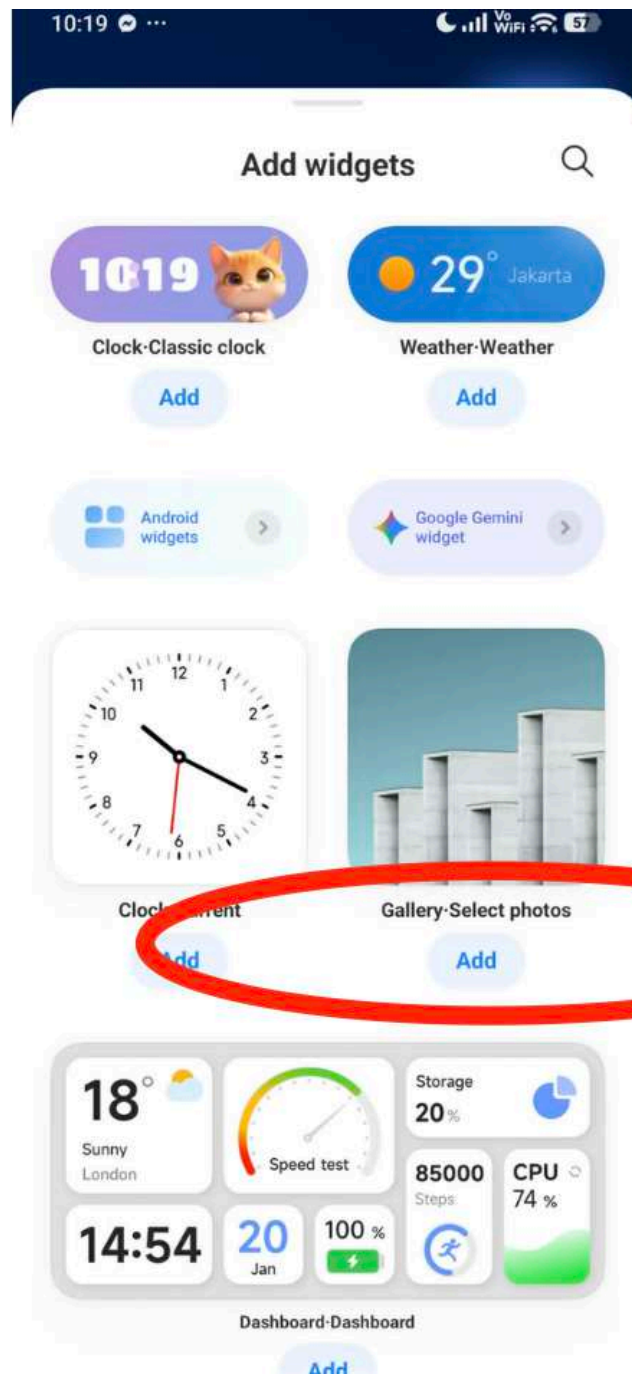

Long Press on your Phone Screen

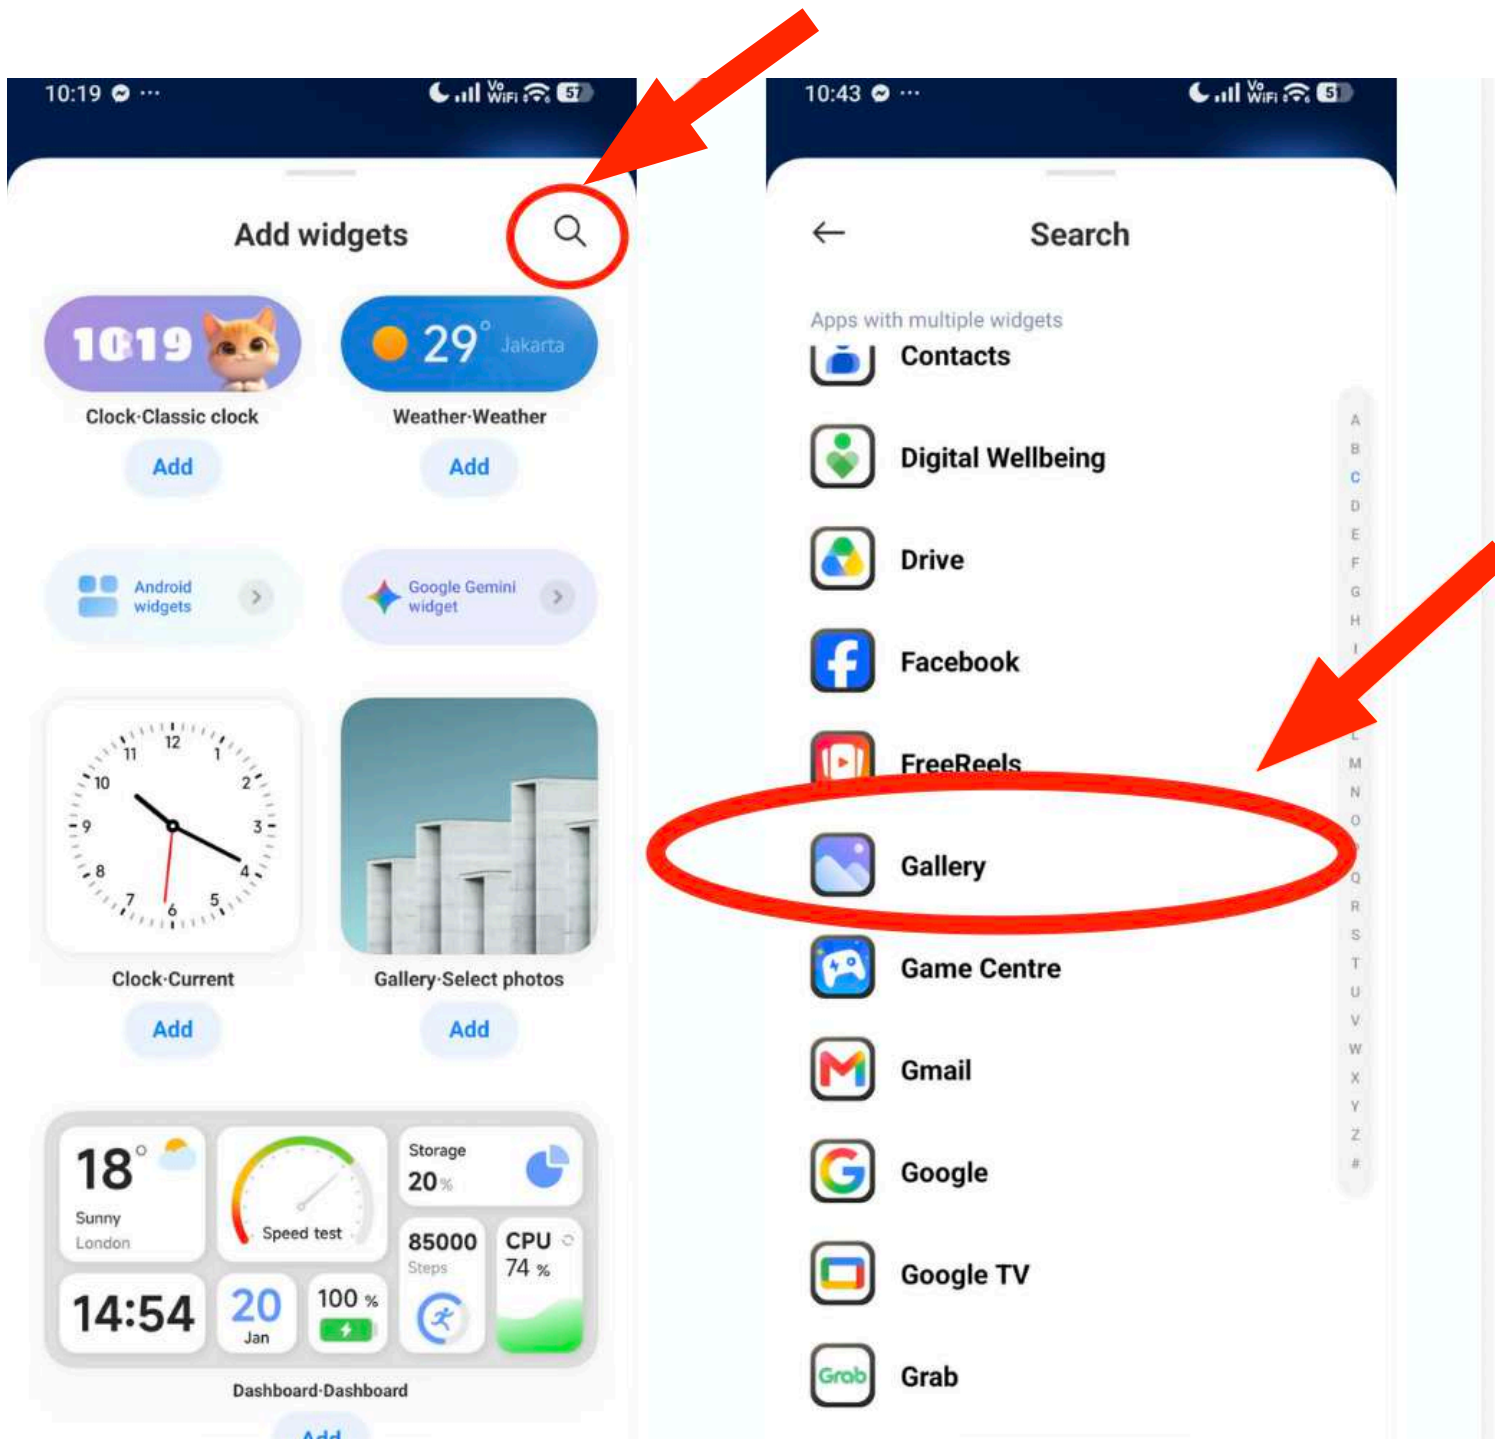

Tap "Widgets"

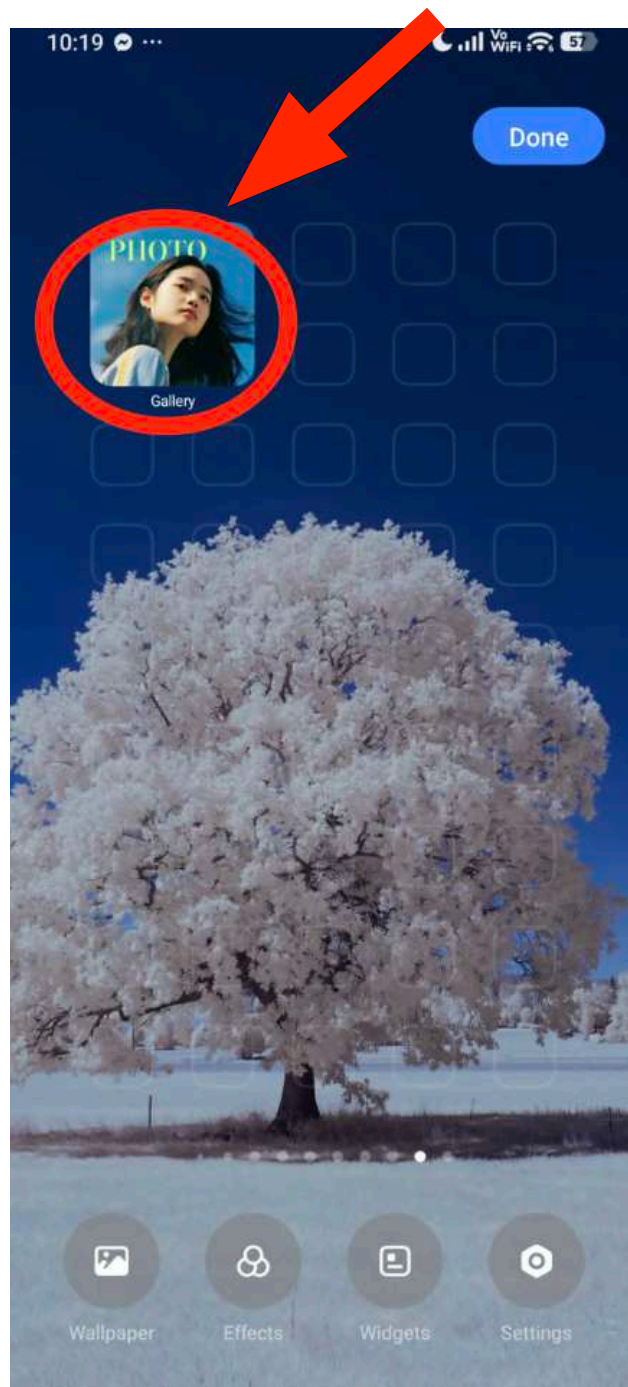

Tap "Gallery-Select photos"

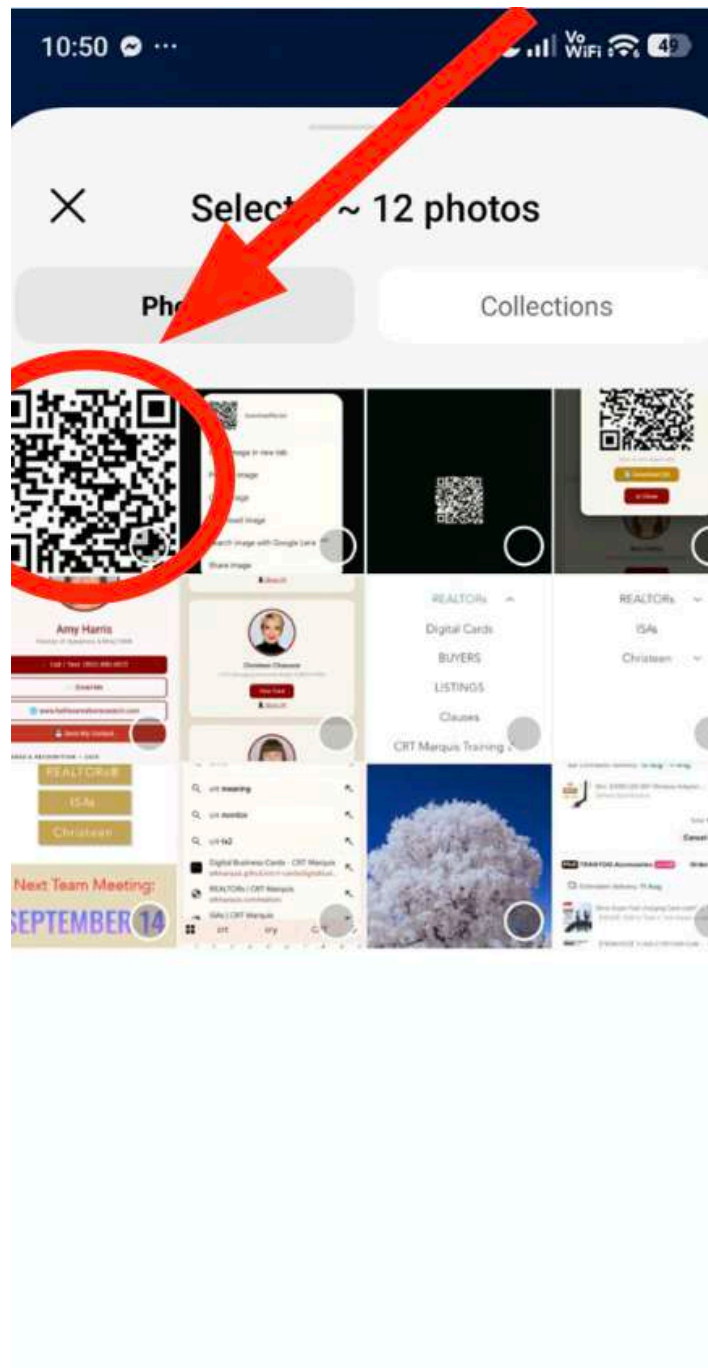

If you don't see the Gallery in the options after going to Widgets tap on the search option then look for "Gallery"

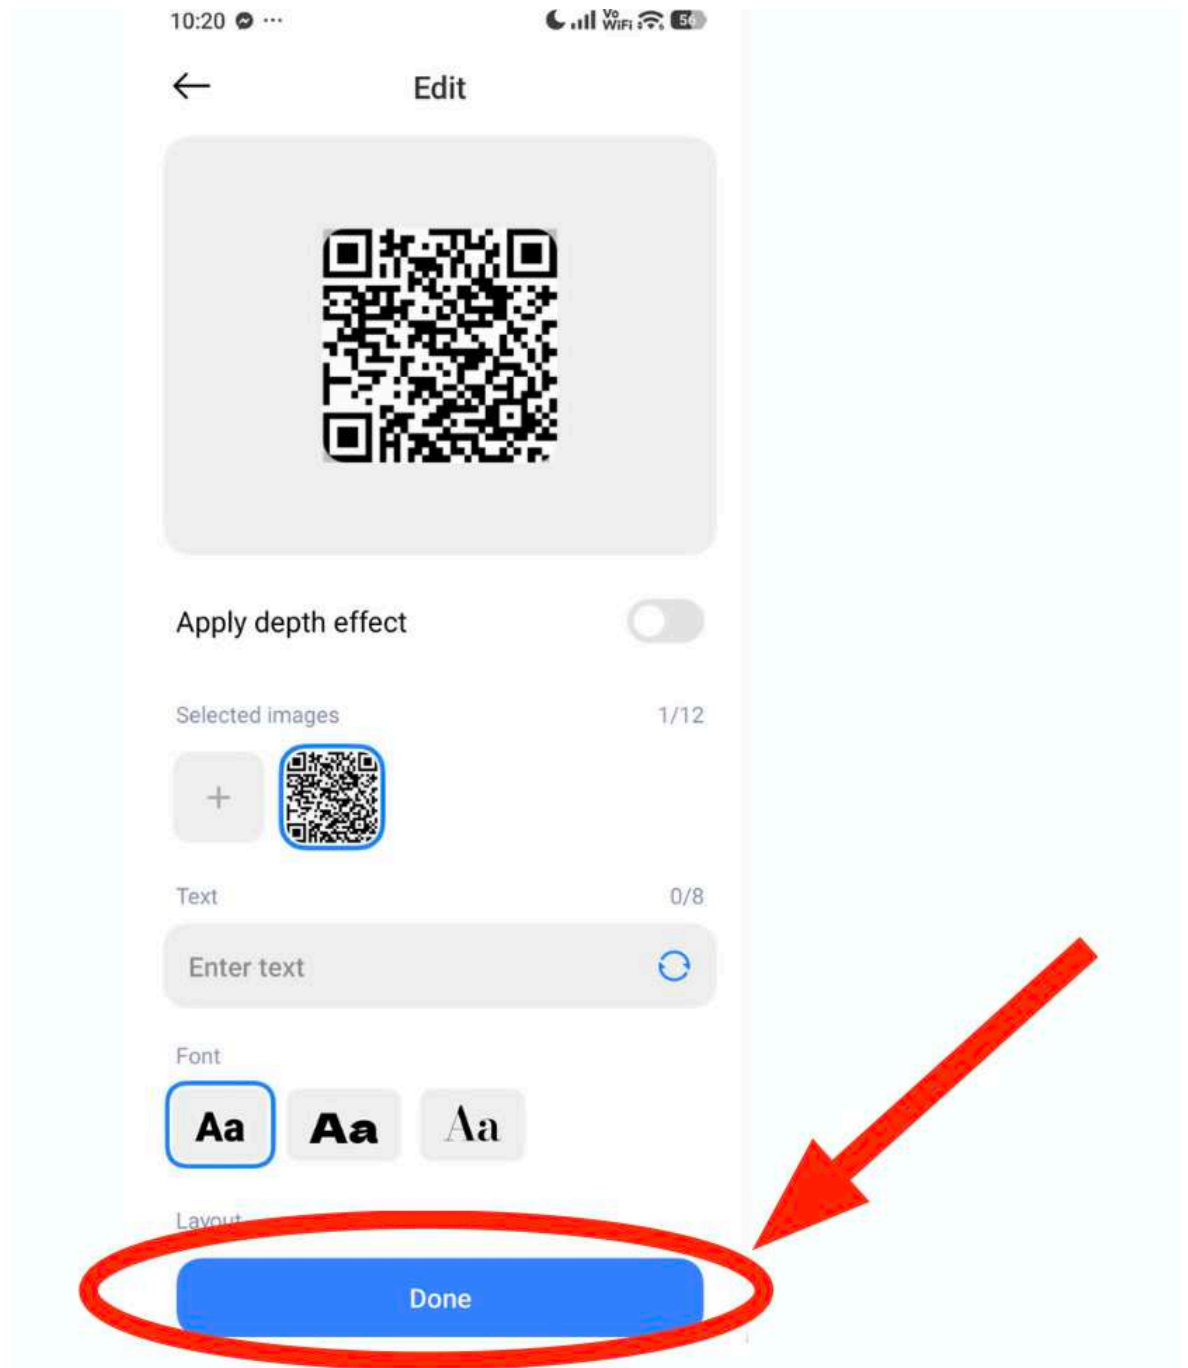

Tap on the "Gallery" widget

Select the image of the QR Code
from your Gallery

Tap on "Done" to save the Widget

You will see the Widget with your QR Code on your Home Screen

Step 2:

Sharing your contact information with people when you meet them, via QR Code.

Locate the Widget for your QR Code on your Home Screen and tap on it

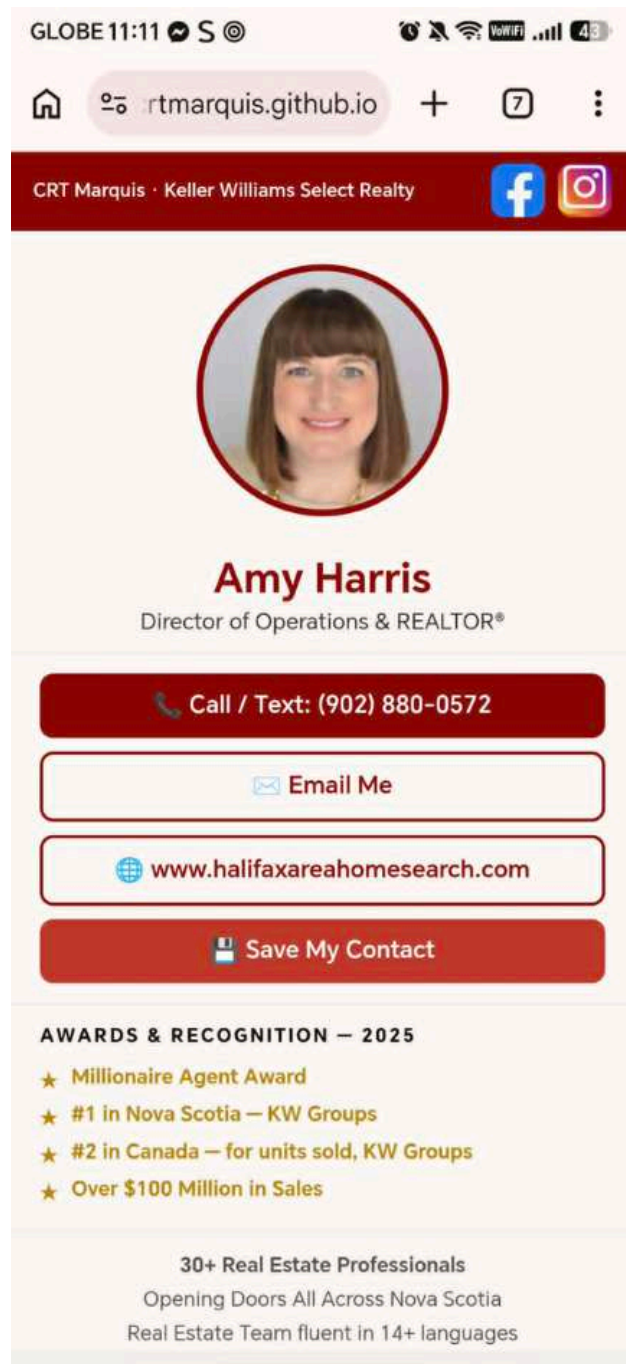

Hold out your phone and have the person scan this QR Code using the camera on their phone and instruct them to tap the small yellow link that appears below it

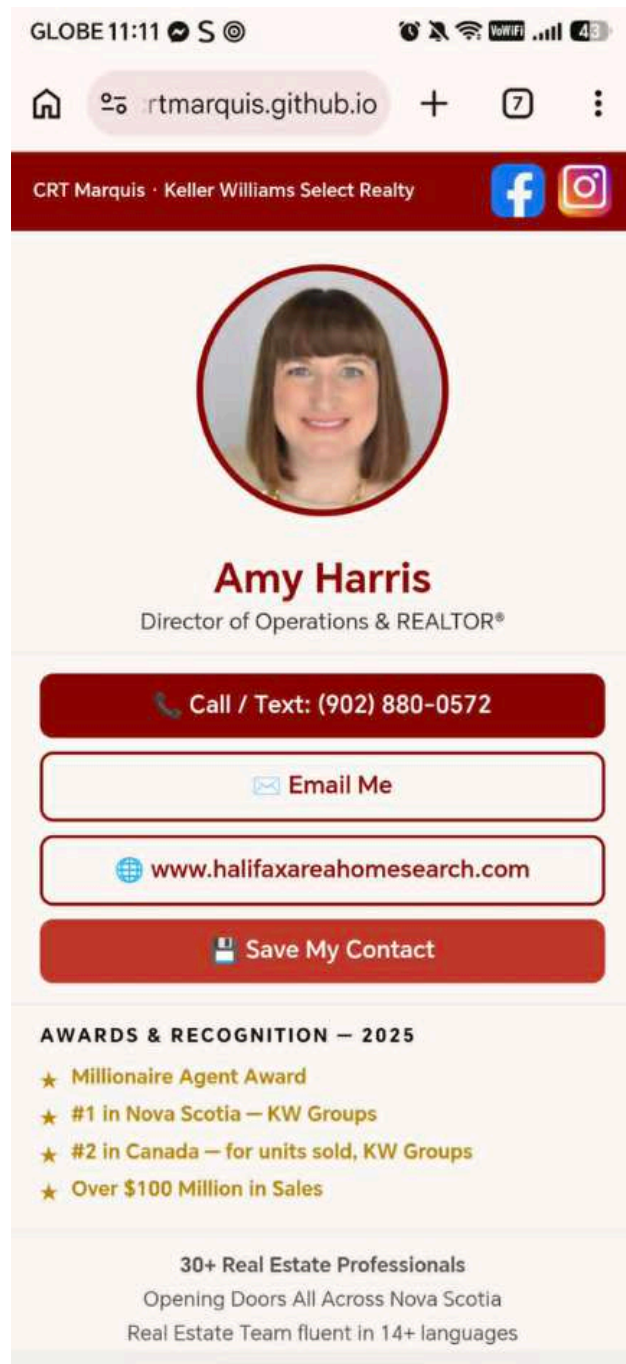

This is what the person will see on
their device

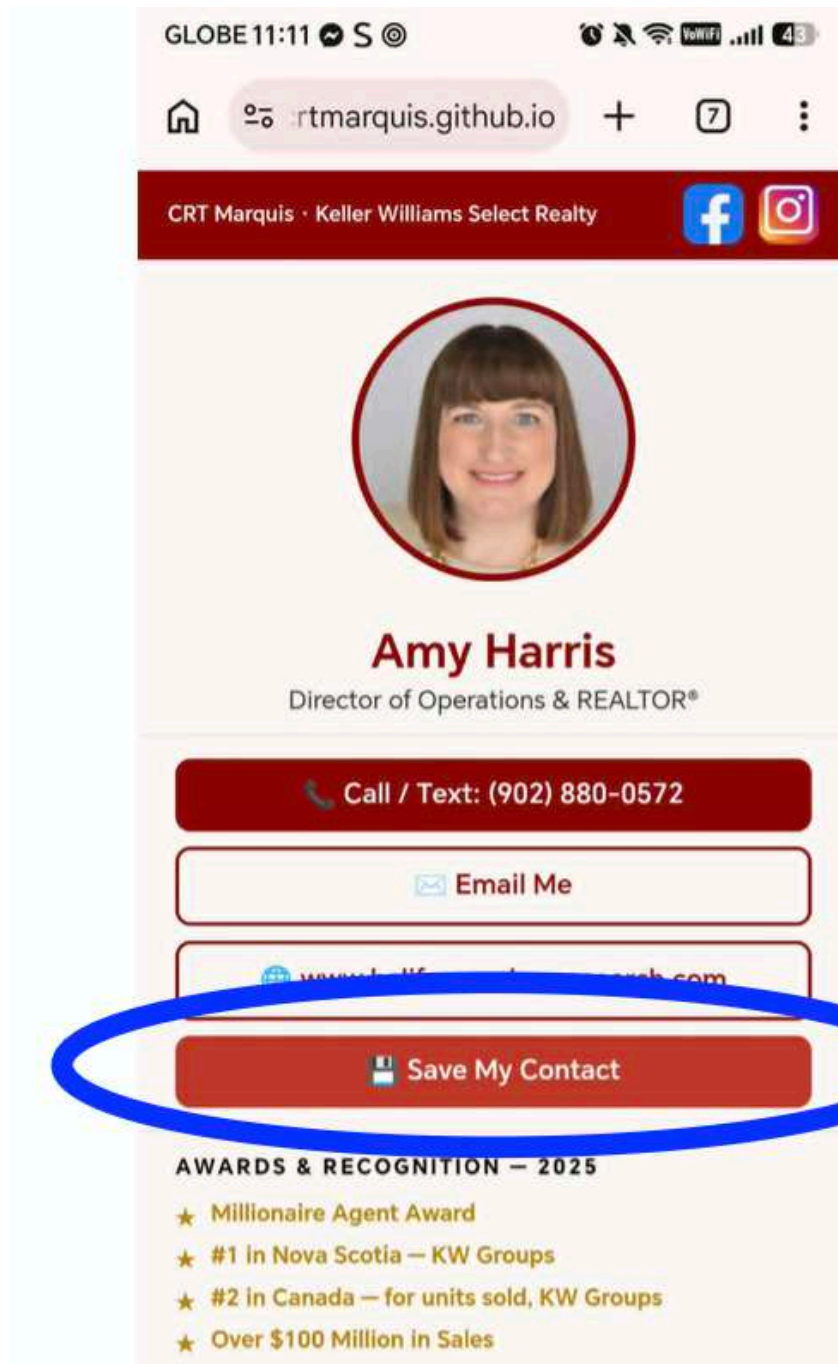

VERY IMPORTANT NEXT STEPS

This has opened in a web browser on the person's device. If they close the tab they will lose your information and not be able to retrieve it ...

**Instruct the person to tap
"Save My Contact" and it will save
your information to their Contacts app**

All done!
